

Mail Client Manual Settings

If you do not see an auto-configuration script for your client in the list above, you can manually configure your mail client using the settings below. We recommend that you use IMAP and SMTP for your email account rather than ActiveSync unless you are on Android and need calendar and contacts support or push updates.

Secure SSL/TLS Settings

Username: ?????@blazinbrands.com.au
Password: Use the email account's password.
Incoming Server: mail.blazinbrands.com.au
IMAP Port: 993 POP3 Port: 995
Outgoing Server: mail.blazinbrands.com.au
SMTP Port: 465
IMAP, POP3, and SMTP require authentication.
